

Quality Policy 2023

VINCI Energies Oil & Gas is committed to offering its customers a range of services tailored to their needs. Through this policy, the management is committed to paying rigorous attention to the quality of its services and to listening carefully to the expectations of its customers and all the stakeholders of the Business Units and the VINCI Group.

In accordance with this policy, VINCI Energies Oil & Gas is committed to:

- Implement best practices to achieve the satisfaction and requirements of its customers and other interested parties (shareholders, employees);
- Seek to continuously improve its processes and the services provided to customers in all its Business Units, in order to guarantee Quality, as well as its competitiveness;
- Comply with local and international laws and regulations;

In an ever-changing, more and more competitive, but also increasingly unstable world, our Business Units must be adaptable, responsive and innovative.

VINCI Energies Oil & Gas will strive to:

- *Ensure the safety, health of our employees and property, quality, and protection of the environment are fundamental values and key factors in our decision-making system. Without intentionally exposing our employees, customers or the communities in which we live and work to the risk of loss;*
- *Actively seek out new markets (geographical areas, business lines) with the priority objective of establishing a long-term relationship with our customers;*
- *Implement and follow a process of improvement, and possibly renewal of our offers, the objective being to be able to constantly propose more competitive offers to our customers, while maintaining the same or even a better level of quality but also ensuring safety and security;*
- *Implement a regular and strict control of the risks and opportunities associated with our activities and our costs (operational and running costs) in order to guarantee our profitability;*
- *Implement means and processes that allow the evaluation and continuous improvement of our employees' skills. During the recruitment phase, but also throughout their career, in order to give them better visibility of their prospects for development within the Group.*

The Quality Policy shall be made available to our employees, customers, suppliers and other interested parties and communicated to all persons working under our supervision. To ensure the effectiveness of our management systems, all our Business Units will maintain their ISO 9001 certification.

Philippe DAVIN
Managing Director VINCI Energies Oil & Gas
